Delegations Coming To
Pull Traffic From
The West

Final plans have been perfected by the Highway Department of the Amarillo Chamber of Commerce to entertain a crowd of highway boosters who will be here as delegates to the annual convention of U. S. Highway 60 Association May 26 and 27.

A surprising number of responses have been received from one end to the other of this great Federal Highway; and particularly from the West. Hundreds are expected from California Arizona and New Mexico many of whom have indicated their intention to go on from here to the Century of Progress at Chicago.

In view of the great economic importance and value of this trans-continental artery of traffic much pressure will be brought to bear in closing the gaps in this highway. Many prominent citizens and officials are expected to be present to lend their influence to the project. It seems opportune and logical that Highway 60 should connect up with the President's Great public works program.

The Chamber of Commerce of Canyon the educational center of the Panhandle will sponsor the trip through the great scenic Palo Duro Canyon. This great scenic wonder is a geological marvel. Here a mighty chasm has been carved in the midst of the Staked Plains of the Panhandle furnishing surprises and thrills galore for the visitors.

The Chamber of Commerce of Canyon will also escort the visitors through the new Panhandle-Plains Historical Society Museum located on the Campus of the College. This trip alone is of great interest. The building is replete with relics of the early history of the Panhandle and West Texas.

"If ever in the history of our country good roads boosters could organize and stay organized it is now," said N. S. Griggs, chairman of the Amarillo Chamber of Commerce highway department, and in charge of reception. Carefully checking the travel census of the United States," he said, "we find positive proof that Federal U. S. Highway 60 is losing an untold amount of traffic due to the lack of organized publicity of this magnificent artery of travel. It pierces the very heart of the greatest natural resources on the North American Continent. The Roman Empire had her Appian Way; America has her Highway 60."

Wallace R. Clark Named as Director West Texas C. C.

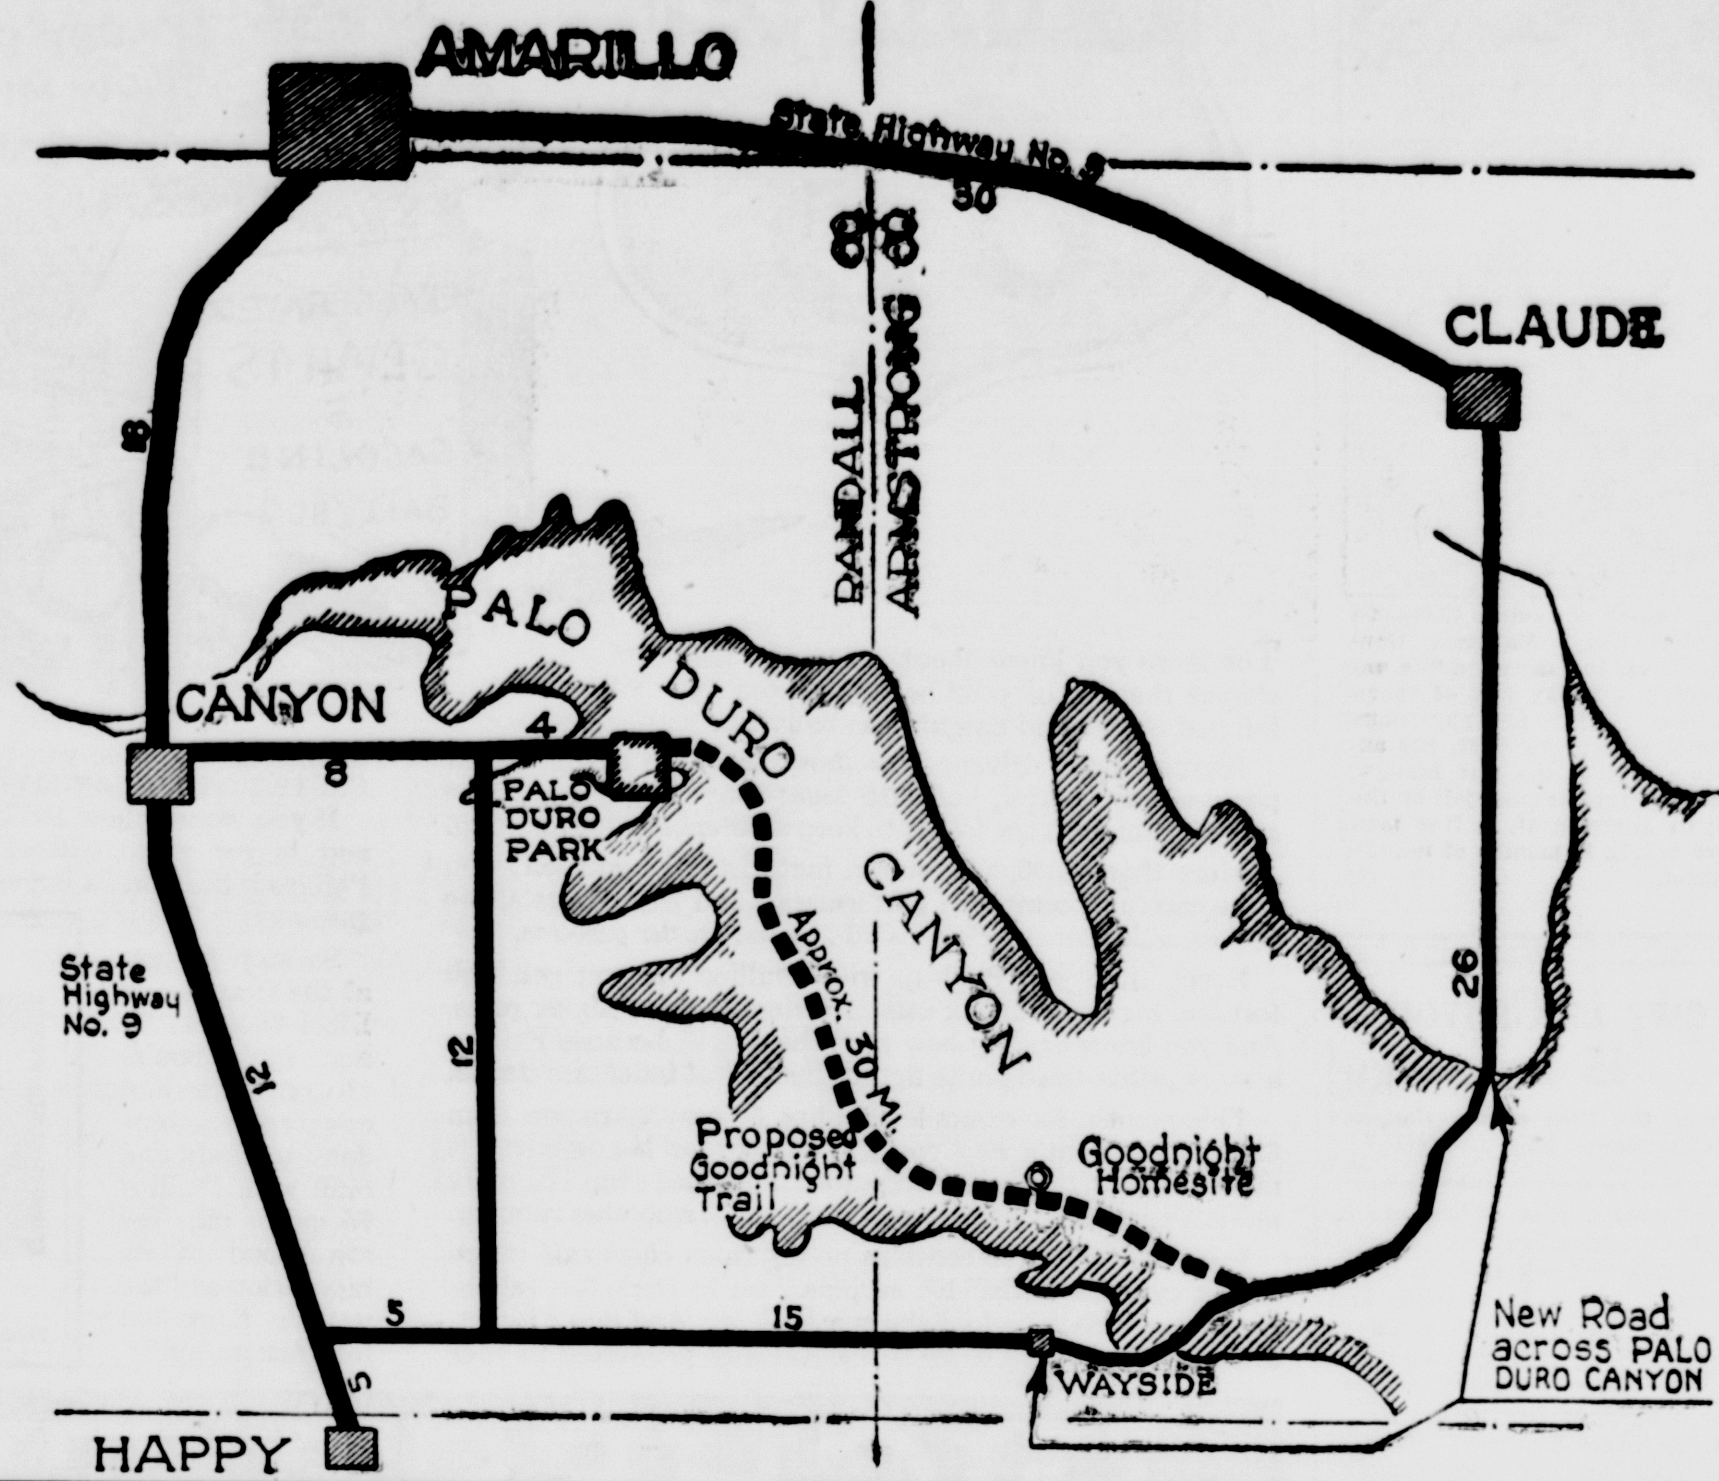

At the annual convention of the West Texas Chamber of Commerce held in Big Spring last week, Wallace R. Clark was re-elected a director in this organization for the coming year. Mr. Clark has served in this capacity for the past three years.

In addition to his work in this organization, Mr. Clark was named as one of eleven by the United States Chamber of Commerce to meet in Washington last year where a complete study of Chamber of Commerce was made, and recommendations passed for the future work of these organizations.

At the Big Spring meeting, resolutions were passed condemning all attempts to injure the West Texas educational institutions, and to oppose the great increase in fees. Active opposition to any further attempts to cripple West Texas state colleges was voiced by Walter Cline of Wichita Falls, who was elected president for the coming year.

Dr. J. A. Hill attended the convention meet Thursday, but was called to Austin to meet with the free conference on the education bill which is now considering the appropriations for the coming two years.

A scenic drive of 100 miles connecting Canyon, Wayside, Goodnight, Claude and Amarillo was marked this week by the Canyon Chamber of Commerce. Several hundred automobiles made the drive last Sunday. The above map shows the drive with a visit to the present Palo Duro Park which was established two years ago by the Canyon Chamber of Commerce; to the Hamblen Drive across the Palo Duro Canyon at Wayside; to the Goodnight ranch and the graves of Colonel and Mrs. Charles C. Goodnight. This is the greatest scenic drive in Northwest Texas.

The map also shows the proposed Goodnight Trail in the Palo Duro, which would be approximately 30 miles in length. The (Continued on last page)

Large Number Are Registered Sunday at Palo Duro Park

Increased interest and activity on the part of those interested in the Palo Duro Canyon project has increased the regular attendance at the Palo Duro Park, located 12 miles east of here.

Last Sunday 286 persons registered at the park. The 13th country was added to the list of nations represented by visitors who have registered, when E. O. Browler of Florenceville, Italy was a visitor at the canyon.

Out-of-state cities represented on the register Sunday included: Oklahoma City; Berwick, Ohio; Bethany, Okla.; Los Angeles; Texhoma, Okla.; Goodwell, Okla.; Oakland, Calif.; Akron, Ohio; Spencer, Ind.; St. Louis; Albuquerque, N. Mex.; Velpew, Ind.; Turpin, Okla.; Liberal, Kansas; McAllister, Okla.; and Artesia, N. Mex.

Farmers Meet at School House Re- gard Wheat Loans

The Randall county committee of the Crop Production loan office is holding a series of meetings over the county this week for the purpose of acquainting the farmers with the regulations covering the new wheat crop loans and the extension of two weeks time on the crop production loans.

The extension of time on the crop production loans covers this week and next, ending Saturday night, May 27th.

Members of the county committee, W. C. Black, T. C. Thompson and R. O. Allison, together with County Agent W. H. Upchurch are attempting to cover as much of the county as possible during the short period of time allowed for making the loans. "Owing to the extremely limited time we have in preparing these applications, it is impossible for the committee to meet in each community in the county, and therefore, we are trying to meet as many farmers, who are interested in the various localities, where it will be fairly easy for them to gather," a member of the committee stated.

The schedule of the meetings are as follows:
Tuesday night, May 16—Pierce School.
Wednesday night, May 17—Umbarger.

Thursday night, May 18—Jowell School.
Friday night, May 19—Parks School.
Monday night, May 22—Sunny Hill School.

All farmers interested in securing such a loan are urged to attend one of the meetings if at all possible. A farmer may secure either a regular crop production loan, with a limit of \$300.00 or a wheat loan with the same limit, or both if necessary.

The wheat loan is secured by a mortgage on the wheat to be sown this fall. Wheat loans may be made for summer fallowing and fall seeding. The amount must not exceed \$1.25 per acre on the total acreage of wheat to be seeded.

The wheat loans are due on or before August 31st, 1934. Applicants must agree to reduce wheat acreage 30% from that seeded last fall.

"Fees for the summer session at the West Texas State Teachers College will be the same this summer as usual," stated Dean R. P. Jarrett today. Fees, including basal text books, last summer were \$17.00 for the twelve weeks session, and approximately half that amount for either six weeks term. "Fees," explained Dean Jarrett, "are fixed by law and can be altered only by act of the Legislature."

Hundreds of teachers have received less money during this year than in any school term for a long time, and it is the policy of Dr. J. A. Hill, president of the West Texas State Teachers College to enable them to attend school as economically as possible. The people of the city of Canyon are co-operating in this effort and there is every indication that June 5, will find a large student body on the campus, ready for work.

Instructors say that summer session students are usually more serious in their work than those who attend the regular session.

Rotary Club Has Report on Dis- trict Convention

President Oscar Gano, Sylvester Ingham and J. H. Cox, Jr., reported Tuesday at the luncheon of the Canyon Rotary Club on the district convention held at San Angelo two weeks ago. All of the Canyon men pronounce it to be the greatest meeting they had ever attended. Dr. Ingham advised the members to plan to go to the next meeting, as a source of great inspiration.

The birthdays of Bob Jarrett and Marion Bishir were recognized. Visitors Tuesday were Mayor Ross Rogers, Charles Rogers, Dick Wingate and Leroy White of Amarillo.

Several members of the club attended the P. T. A. meeting at Sunny Hill Friday night, and put on a short program.

An inter-city meeting will be held in Amarillo tonight which will be attended by several local Rotarians.

CANYON SCHOOLS ARE ON A CASH BASIS

"The Canyon Independent School District will pay its accounts in full for the year," stated J. W. Shanklin yesterday.

The local district is one of the few on the Plains which has been able to run on a cash basis all year. Another dollar on the state apportionment was received this week which will be sufficient to pay off the teachers when school closes Monday.

Reduction in operating expense this year is largely responsible for the efficiency of the local schools the past year, and a further reduction of 20% is contemplated for the coming year.

House Approves Appropriation For The Summer School

Appreciation Is Given to Eagle's Tale Staff

The News staff wishes to express its great appreciation to the students of the Canyon high school for the splendid work of the past year in the publication of the Eagle's Tale.

This page was started in the News seven years ago by John Randolph, who was teaching science in the schools. It was the first high school page to be printed regularly in a local newspaper in the Panhandle.

Interest in the page has grown yearly. Profiting from the experience of those who have gone before, the staff of this year has excelled in the interest of the public school news printed in the Eagle's Tale page.

This regular feature of the News will be continued when school opens in September.

To the staff of this year, The News wishes to extend most hearty congratulations for the splendid work of the past nine months, and very great thanks for the service rendered to the schools and to the patrons of the schools.

CUT SENATE BILL IN TWO YESTERDAY

\$12,250 Appropriation Is
Given W. T. In
Bill

PAY FOR FACULTY

Bill Goes Back To Sen-
ate for Final
Action

An appropriation for this year's summer school was voted yesterday by the House of Representatives, according to a telegram received last night by The News from Representative H. K. Stanfield. The amount allowed by the House was \$12,250 for W. T.

Last year the legislature gave W. T. \$35,000 for the summer session. Early in the session, the Senate passed an appropriation for summer school, reducing the amount 30% to \$24,500. The House appropriations committee refused to approve an appropriation for this year's summer school, but finally the bill was brought out of the committee on a minority report. In its action yesterday, the House cut the senate bill in two.

The bill will go back to the senate today where it will either be accepted, or a free conference asked for in an effort to increase the amount.

The passage of the bill yesterday makes certain that some sort of support will be given this year's summer school, and that the teachers on the College faculty will receive something for this work during the 12 weeks. The Board of Regents early in the year ordered that a summer session be held regardless of any appropriation, and President J. A. Hill has made announcements regularly that the summer session would be held whether or not the state supported this term. If the senate does not succeed in getting the appropriation increased, the faculty members will receive about one-third of the salary of last summer, which was a considerable reduction from the amount they usually receive.

Plans for the summer session are going forward, and a large attendance is expected.

Bones Hooks Is Quizzed by Class In Plains History

Mathew (Bones) Hooks, appeared before a class in Great Plains History here today and for an hour answered questions which were propounded to him by advanced students in a class taught by Professor L. F. Sheffy.

Bones Hooks has been a horse wrangler, cook, porter, and leader of his race in the Panhandle since 1886. When asked what the cowboys on the early ranches did for recreation, he replied, "They just worked. They frequently lost track of time, for Sunday was just like any other day. Changes were just from week days to Sunday; they were just from day to night."

Bones, who has seen the Panhandle change from a region inhabited only by scattered ranch homes to the present population, and has seen the succession of buffalo trails by cow trails, and these succeeded by wagon trails, railroads, paved highways and airplane transport, is a philosopher. He believes that faith is the greatest asset a man has, and that friendship is the best thing life gives.

Asked if he had ever been up in an airplane, Bones said, "Yes." That he wanted to ride everything that anybody had ever ridden in the Panhandle, but that he didn't think he would go up in a plane again "unless it was necessary."

Two Years

TOTAL IS \$139,080

Heavy Reduction Made
Over Total of Past
Two Years

Free conference agreement on the appropriations bill for the coming two years was reached Monday in the legislature, which placed the appropriation for the colleges on a per capita basis. This is the first time that the legislature has ever presented such a program for appropriations. According to this agreement, the West Texas State Teachers College will receive \$180 per student or a total for each of the coming two years a total of \$139,080, as compared with the appropriation of \$218,750 for each of the past two years.

The East Texas State Teachers College at Commerce and the North Texas State Teachers College at Denton, the only two with an enrollment in excess of 1,000, were granted \$160 a pupil. On that basis the Commerce school received \$172,582 and the Denton school \$240,566.

Four of the colleges, with enrollments between 500 and 1,000, were given \$180 per capita. The schools and the amounts given for each year were: Sam Houston State Teachers College, Huntsville, \$139,280; Southwest Texas State Teachers College, San Marcos, \$154,000; Stephen F. We are going to vote August 26th in Texas on beer, and in the same election a \$20,000,000 bond issue for relief purposes. Now isn't that something? We have been told for the past six months that beer would solve all of our economic ills, such as restoring confidence in the government, making everyone rich, helping the farmer sell his products, saving the railroads, giving the public schools more money than they needed, and putting us back just where we were before this unfortunate depression hit us in the face. Therefore, if beer is going to do all of this, why the \$20,000,000 bond issue? It is also interesting to note that many who have so violently opposed state bond issues in the past, are very much in favor of this one. While the News has not decided upon an attitude toward this proposed state bond issue, we are wondering if the individual counties would not be better off in meeting their own distress problems than to lay another burden on the tax payers of the state through a bond issue. An elaborate state machine will likely be set up to handle the proposed bond issue, and the overhead will be heavy. The individual counties could handle their problems with little or no expense. The real merit in the proposition is the fact that the federal government will give to Texas one dollar for every three dollars put up by the state. As much as the tax payers oppose bond issues, it now looks like this one would carry by a comfortable margin if conditions do not change radically for the better before the time of the election.

The legislative re-organization bill passed the House last week by a large majority following a very brief discussion. The Senate will probably not act so hastily on this important matter, and it may be predicted that the Senate will likely not act at all this session. A saving clause in the bill provides that the re-organization will not take place before September 1, 1935. Another session of the legislature would be held before the bill became effective, and thus serious mistakes which are being made in the new set-up could be changed by the next legislature before the bill would be put into effect. This would give the state officials 19 months to study the bill before another legislature met, and an opportunity to find out its weaknesses. There are likely many gross errors in this bill, which should be corrected before passage, but if some kind of a re-organization bill is not passed at this session of the legislature, and if economic conditions do improve before the next legislature meets, most of the demand for economy in state government will have been forgotten, and the state will rock along with its 132 departments, and continue to add more.

Is Democracy a failure? The question was raised by a speaker in Amarillo last week, and answered to a considerable extent. Practically all of the nations which changed to the democratic form of government following the world war have gone back to their former kinds of government. Even in America, such extraordinary powers have been placed in the hands of the President that he is almost a dictator, or at least could be a dictator if he so chose. The fact that psychologists have determined that fully 98% of the American people do not think for themselves makes uncertain the past belief that our form of government is such a huge success. It takes a brave individual to denounce as a failure this government of which we have so long boasted, but a lot of the real leaders of the nation are thinking in this line.

The proposed fight on the state educational institutions at the annual meeting of the West Texas Chamber of Commerce did not develop, when the denominational colleges which have sponsored this fight saw that they were whipped before the fight started. As a result of the threat, the West Texas Chamber of Commerce took a decided stand in favor of the state colleges of this section, and demanded their support. This organization has been passive during the last year while the fate of the state institutions were at stake.

An aggressive support of the state colleges in West Texas is promised in the future, with active opposition before the legislature should another attempt be made to injure these schools.

Tacking legislation on to an appropriation bill has long been the habit in congress. The Texas legislature will attempt the same thing this week when a rider to the departmental appropriation bill will seek to legalize horse race gambling in Texas. The subject was turned down by the House early in the session. Should the House and Senate adopt this rider it would be subject to veto by the Governor. A hot battle is expected on this feature of the bill. Arresting niggers for shooting craps in the alley while white men are allowed to openly gamble on horse racing does not coincide with our sense of justice.

An amendment to the state constitution will be voted upon by the legislature before the end of the session which would be adopted by the people with the greatest of pleasure. This amendment calls for a reduction of the Senate to 21 members and the House to 64. However, if passed by the legislature, the number of senators will probably remain at 31, and the House reduced to about 90. As a matter of fact a House of 75 would be more ideal and would save the tax payers thousands of dollars in each session.

Beer has not proven such a big boost to the dairymen of Illinois. A restaurant man reported that before the advent of beer he bought 40 gallons of milk daily. After beer came, the demand dropped to 5 and 6 gallons of milk daily. The rest of the money went for beer.

Commenting on those people who see wrong in women riding astride the Roswell Register-Tribune delivers itself to the following: The average woman looks like a sausage on a flying jinney when she gets on a side saddle and moves faster than a walk. Nature imposes that penalty. If she had wanted a woman to ride a horse that way the woman would have been built with one leg, which of course could not be divided to go on both sides of a broncho. When it was discovered that way back there that this finest of exercise was as good for woman as man, some idiot invented the side saddle and it was kept up until people had a recrudescence of the primitive common sense, which teaches

Watch out! Don't let bargain gasoline
"Take YOU for a ride"

The more you know about a car, the less chance there is of your being tempted by inflated claims and bargain gas ballyhoo.

Inexperienced drivers may think they are saving a few pennies per tankful, but YOU know that they will soon be spending many extra dollars to keep their engines in condition.

More than 7,000,000 veteran motorists like yourself, who have carefully compared performance and figured costs, are enthusiastic users of Phillips 66... the greater gasoline.

Every time you Phill-up with Phillips 66, you get high test and high anti-knock without a single cent of higher price. And you know exactly how high the test is, because Phillips always prints the definite figures instead of indefinite claims.

This month, for example, Phillips 66 gravity ranges from 62° to 68°. That's why you will quickly feel the difference it makes in your motor—extra power and added snap... more miles per gallon... swifter acceleration... smoother running.

Besides, Phillips 66 contains no injurious chemicals which attack cylinder walls. No surplus gum to stick the valves. No excess carbon to foul the spark plugs. And don't forget, every gallon of Phillips 66 is scientifically pre-suited to your

weather at the time you buy it, by the famous principle of CONTROLLED VOLATILITY.

If you wonder how Phillips can give this honest high test and bigger value without extra cost, just remember that Phillips is the world's largest producer of natural high gravity gasoline.

So stop for gas at the Orange and Black 66 shield... and while you're there, ask the courteous attendant to drain and refill with Phillips 66 motor oil. We are proud of its reputation as "the world's finest oil for your motor."

HOME EC DEPT. HOST TO CLUBS TWO DISTRICTS

Over 400 Women on Campus Last Thursday for Extensive Program

20 COUNTIES

W. T. Faculty Members Speak; Lamb County Has 50 Present

The Third Annual Short Course for Home Demonstration Clubs was held here Thursday, May 11, with this college cooperating with the Extension Service of Texas A. & M. College. More than 400 women, representing 20 counties in districts one and two of Northwest Texas, were on the campus for the program arranged by Miss Marion Normington, head of the W. T. Home Economics Department, and Miss Minnie Mae Grubbs and Miss Myrtle Murray, Home Demonstration agents for the two districts.

Aside from Randall County with 101 delegates present, Lamb county had the largest representation of the day, fifty. Knox, Hutchinson, and Randall counties were represented at the Short Course for the first time.

Mrs. J. A. Hill, president of the Seventh District Texas Federation of Women's Clubs, opened the two-session program at 10:00 o'clock Thursday morning with an address of welcome to the Club Women. A response was made by Mrs. J. B. Diggs of Potter County. Mrs. Gladys Weaver, Hemphill County agent, led the program of songs throughout the day.

Prof. L. F. Sheffy spoke on the P. P. H. S. Museum and later conducted the large group through the recently completed building. A feature of the program's entertainment was a stunt performed by W. T. students from the T-Anchor Farm.

The afternoon session was featured by an address given by Dr. R. P. Jarrett, Dean of the College. Miss Murray led in a discussion concerning an exhibit of rugs and mats which had been made by Home Demonstration club members.

Miss Bess Edwards, assistant State Home Demonstration Agent, closed the day's program with an address in which she outlined new possibilities for beautifying homes and making life richer through the use of materials at hand.

Counties represented: Briscoe, 13; Carson, 6; Castro, 18; Childress, 5; Crosby, 1; Deaf Smith, 11; Dickens, 5; Gray, 18; Hale, 28; Hardeman, 3; Hemphill, 9; Hutchinson, 24; Knox, 4; Lamb, 50; Parmer, 22; Potter, 45; Randall, 101; Roberts, 8; Swisher, 12; and Wheeler, 5.

WHEN "SOUR GAS" BILL BECAME A LAW

It was a great day for Representatives from the Panhandle in the Texas Legislature when Governor Miriam A. Ferguson signed the bitterly contested "Sour Gas" bill, which will permit distressed owners of unconnected gas wells to realize something on their investment. In the Senate the measure

was particularly pushed by Senator Clint Small, while in the House, Representatives B. L. Rogers of Farnsworth and H. K. Stanfield of Amarillo, were motivating forces. During the fight to put the bill over, Rogers became known among his colleagues as "Sour Gas" Rogers. Other Panhandle representa-

tives were equally persistent and active in pushing the measure. Shown in the above photo, made bill, and standing behind the governor, are: left to right, James E. Ferguson, Rep. H. K. Stanfield, Senator Clint Small, Rep. John Puryear, J. H. McCracken, Rep. B. L. Rogers, Mrs. J. H. McCracken.

"BETTY" PAINE, BOOKER FLASH, LEADS BUFFALOES TO VICTORY

Panhandle A. & M. Drops Track Meet To W. T. Saturday Night

With "Betty" Paine, ace clown of the Buffalo track squad, and Bill McLendon, past master of the fog horn, literally stealing the show, the Burtonites of West Texas ran rings around the Panhandle A. & M. stalwarts Saturday night in Buffalo Park to win their first track meet of the season.

The score was 93-29.

Paine, the Booker Flash, displayed extraordinary form in the half mile, the mile relay, and the broad jump. In the first of these, he led the pack on the first lap only to be forced out of the race by leakage of the heart. In the mile relay, he was disqualified after coming in first. It was charged that he had clipped two corners in his mad flight. His attempts at broad jumping failed to register because he couldn't reach the sand pit.

McLendon's vivid descriptions of the races, and his personal comments concerning the popular athletes, kept the packed grandstand in a continuous uproar. While thousands of throats howled themselves hoarse, W. T.'s choice morsels raced to glory and to victory.

As is becoming habitual with him, Rudolph was crowned high mogul of the meet. Despite a bum leg, the game youngster took three first places and one second for 18 points. It was the last meet of his college career, he being a senior with better than average chances for graduation.

Brown, another W. T. luminary, was second highpoint man with 14, three second places and one first. He is a junior. Peek, for the visitors, made 11 points, coping the century dash in 10.4.

Another senior to wind up a brilliant career in W. T. athletic circles was Alvord Swofford, distance runner, who Saturday night took first place in the gruelling two-mile run after coming in second in the one-mile.

The events ended the 1933 track season unless it is decided to hold the return match with Lubbock Tech scheduled for May 20. It was recently cancelled following a recommendation to that effect made by S. D. Burton, Buffalo coach and head of W. T. athletics.

The results of track events: Mile run: Greever, W. T., Swofford, W. T., 5:32; 440 yard run: Colvin, W. T., Richards, W. T., 55.4; 100 yard dash: Peek, A. & M., Morgan, W. T., 19.4; High Hurdles: Rudolph, W. T., Peek, A. & M., 16.2; 880 yard run: Colvin, W. T., Caldwell, W. T., 2:12; 220 yard dash: Morgan, W. T., Brown, W. T., 23.6; Low hurdles: Rudolph, W. T., Peek, A. & M., 27.9; Two mile run: Swofford, W. T., Loepp, A. & M., 12:28.6; One mile relay, W. T. (Keith, Colvin, Duncan, and Richards.)

Field Events: Shot put: Rudolph and Brown, W. T., 36 ft. 6 in.; pole vault: Loepp, A. & M., Brown, W. T., 10 ft. 3 in.; broad jump: Brown and Morgan, W. T., 19 ft. 8 in.; Discus: Newton, W. T., Miller, A. & M., 107 ft. 2 in.; high jump: (four men tied — points divided) Wallin and Freeman, A. & M., Fortenberry and Walker, W. T.; Javelin: Walker and Rudolph, W. T., 141 ft. 2 in.

SPRING SEASON IN BASKETBALL

Thirty Aspirants Out for 1934 Varsity; Look Good

Spring basketball training started yesterday afternoon with thirty aspirants for next year's varsity squad reporting for the two weeks period.

Coach "Sad" Sam Burton started the athletes off with drill in fundamentals.

Four members of the 1933 aggregation will graduate this spring, Monroe, Burk, Comer, and Morris. Burk and Comer are first string men and will leave clefts in Burton's line-up that will be hard to patch.

The spring training will provide an opportunity for coaches to detect promising talent among the Frosh graduates and the hold-overs.

Among the leading candidates are Williams, Canyon; Walker, Spearman; Richards, Ralls, outstanding reserve guard of past years; Davis, Childress, sophomore star on the B squad; McMinn, Kirkland, frosh; McIlroy, Ralls, frosh; Lacy, Turkey, frosh; Boedeker, Lockney; and Reams, Booker. These are all men who will put up stiff scraps for a place on the 1934 varsity.

Y. W. C. A. SPENDS WEEK-END IN CANYONS

Observing a custom now almost traditional, the newly elected officers of the Y. W. C. A. accompanied by the outgoing officers and several former members of the Y. W. C. A. cabinet enjoyed a restful week end retreat at the Methodist camp ground in the canyons.

Not to be stopped by standstills the girls and Miss Ruth Lowes and Miss Mary Moss Richardson were trucked out late Saturday evening a week ago, where after supper they all gathered around the piano to sing the many songs dear to the hearts of the Y. W. C. A. girls. It was particularly interesting to see the girls who worked on the campus five or six years ago teaching the present group the songs which they had learned in Hollister, Missouri. A prayer service led by Jean Day concluded the program for the evening and they all slept out in the open.

Miss Richardson led the sunrise prayer service at which Miss Lowes read an Exhortation of the Dawn, translated from the Sanskrit and peculiarly applicable to such a situation.

After hiking around a bit, resting in the sun and more talking over old times the girls took part in the ten o'clock service opened by the devotional given by Miss Ethleen Murrell, and led by Miss Angie Debo. The discussion centered around the worth of the Y. W. C. A. to the girls who work in it and to the college as a whole. At this service Elizabeth Faulkner sang, "I Would Be True" with no accompaniment other than that of the red birds.

Everybody enjoyed the picnic dinner at which Rev. and Mrs. T. B. Hilburn were guests of the girls, after which most of the group attended the dedication of Wesley Camp.

Those who spent the night in the canyons: Miss Moss Richardson, Miss Ruth Lowes, Dickie Smith, Elizabeth Faulkner, Dorothy Faye Rusk, Dorothy McKenzie, Fannie Mae Rees, Mildred Wharton, Virginia Heaton, Jean Day, all of whom are now in school. Ethleen Murrell, Mrs. Annie Mae McManigal, and Price Moorman, graduates and former officers of the Y. W. C. A. were also present. Sunday morning Mrs. T. V. Reeves, Miss Angie Debo and Margaret Camp joined the group, and at the ten o'clock meeting Mrs. Lloyd Neeley, and Claudia Neeley sat in.

EDGETOWN H. D. CLUB MET FRIDAY

The Edgetown Home Demonstration Club met Friday afternoon at the home of Mrs. G. H. Hardman. The house was called to order by the president, Mrs. S. O. Sanford. After the business was completed Miss Bess Edwards, assistant state Home Demonstration agent, gave a very interesting talk.

Miss Sadie Kate Bass then took charge of the meeting and demonstrated the use of foundation patterns and showed how to cut any pattern from the one basic pattern.

Those present were: Mrs. O. M. Solomon, Misses Mildred and Mabel Solomon, Mrs. W. L. Miller, Mrs. W. A. Black, Mrs. S. O. Sanford, Miss Bee Holland, Mrs. G. L. Bailey, Mrs. Edwin Gidden, Mrs. T. V. Slack, Miss Bess Edwards and Miss Louise Solomon.

The next meeting will be held on Friday, May 26, with Mrs. O. M. Solomon.

BRIDE-ELECT IS COMPLEMENTED

Announcing the coming marriage of Miss Irene Crawford to Richard E. Ball, Miss Winnie Davis and Miss Irene Presley entertained Sunday afternoon from three to six with a program tea at the home of Mr. and Mrs. Robert Foster, 1903 Third Avenue.

Guests were received by Miss Presley, Miss Gladys McLanahan, Miss Crawford, Mrs. Kate Houston, of Borger, Miss Davis and Mrs. Chas. Poff of Happy.

A color scheme of pink and green was developed in the reception rooms where bouquets of pink carnations were placed at points of vantage. The tea table was laid with ecru fillet lace over pink satin and centered with a green glass bowl of pinks on a mirrored base. Pink tapers in silver holders marked each end. Mrs. Robert Foster and Miss Lillian Atkins poured tea and Mrs. Clyde Davis and Mrs. Felix Neff served. A large white bell was suspended over the table from streamers which were attached to each corner, crossing in the center. Behind the serving table hung a pink heart which announced the date of the wedding, June 4.

The program was composed of musical numbers by Mrs. Lee Foster, vocal numbers by Mrs. J. D. Barker and Miss Freda Charles Bills, violin numbers by Oscar Cronson and readings by Mrs. C. J. Crump.

Sixty guests called during the afternoon.

VISITORS ARE HONORED WITH PARTIES

A number of affairs have been given the past week honoring Mr. and Mrs. T. E. Moon and daughter, Larry Jean, of San Antonio, who have been visiting Mrs. Moon's sister, Miss Novella Goodman.

WOMEN'S AUXILIARY MEETS TUESDAY

The Woman's Auxiliary of the Presbyterian Church met on Tuesday afternoon for a study of the Latin American peoples of Mexico, where a number of missionaries of the denomination are stationed. The influence of the gospel teachings on the lives of the inhabitants, many of whom are very illiterate, was brought out by the lesson.

Many curios and specimens of beautiful hand work done by the Mexican women were displayed by the leader, Mrs. J. W. Shanklin, who has spent several years in that country.

Miss Josephine Duflot, dressed in costume worn by the senioritas, gave several selections of Spanish music on the piano.

At the conclusion of the program, dainty refreshments were served by the hostess. The meeting was well attended by members and in addition several guests were present.

The next meeting of the society will be held with Mrs. Bills, in honor of the mothers and grandmothers of the church. All women of the Presbyterian Church are cordially invited to be present.

MRS. INGHAM, MRS. WORD ENTERTAIN

Mrs. S. L. Ingham and Mrs. M. R. Word of Logan, New Mexico, honored Mrs. George Ingham of Amarillo and the members of the Friday Afternoon Bridge Club with a bridge tea at the home of Mrs. Ingham last Friday afternoon.

The home was attractively decorated with bouquets of iris and other summer flowers. Following a social hour, refreshments were served, with Mrs. George Ingham and Mrs. Clarence Thompson, president of the Club, presiding at the tea table.

Games of bridge were arranged at seven tables and formed the diversion for the remaining part of the afternoon. Honor guest prize was presented Mrs. George Ingham, and card awards to Mrs. Flanigan Smith and to Mrs. John Jackson.

Pioneer Days to Be Celebrated at Plainview Saturday

Pioneer days will be revived at the Fifth Annual Pioneers Round-Up which will be held in Plainview, Saturday, May 20. The Business and Professional Women's Club is sponsoring the affair and announce that plans are nearing completion for the best and biggest of the five preceding old Time Reunions.

The celebration begins at 2:00 o'clock p. m. on Saturday when the old timers will gather at an up town building to swap stories and visit.

The parade will form promptly at four p. m. and all pioneers are urged to ride in the parade. Many odd features will be displayed in the parade—Indians, soldiers, cowboys, women riding with sidesaddies, covered wagons, top buggies, surreys, buckboards, chuck-wagons, and many other relics of the early day. A number of entries from neighboring towns depicting historical events of this section are expected.

At six o'clock a chuck wagon supper cooked by old time cowboys, will be served.

A collection of old relics and old photos will be on display throughout the evening.

A pageant depicting pioneer home life and romance of the eighties will be the main feature of the program which will begin at eight p. m. W. J. Klinger will be master of ceremonies. Cowboy songs, fiddling, roping, clog, buck and wing and square dancing will be included in the program.

An old style show, under the direction of Mrs. J. W. Wayland and Mrs. R. W. O'Keefe will be displayed in a setting of an old fashioned garden.

At nine o'clock a square dance will start, concluding the day's program.

POSSIBLE OUTCOME OF A FARM STRIKE

Miss Bess Edwards, assistant State Home Demonstration Agent of College Station spent Thursday here as the guest of Miss Sadie Kate Bass and in attending the Short Course at the College.

Bill Hamblen Is Highly Pleased at Success of Drive

Bill Hamblen of Wayside was a business caller in the city Monday. He is the guiding spirit in the movement to build the Hamblen Drive across the Palo Duro canyon in order to connect Wayside with Claude, and at the same time open up to the people of West Texas a scenic drive which is the greatest in this section. As a compliment to his efforts for 25 years to build this highway, the commissioners court of Armstrong county have officially named the canyon crossing "Hamblen Drive."

The Chamber of Commerce has marked the roads from the museum to the Palo Duro Park and on south to Wayside so that people may easily follow the Hamblen Drive.

Several hundred cars made the trip last Sunday.

Mr. Hamblen is greatly interested in the success of the Goodnight Trail which will connect with the Hamblen Drive in the bottom of the Palo Duro.

NUMBER 32

Bless my appetite if I ain't a gettin' to write for you all agin. I was kinda worried last week, cause I was afraid that was the last time I'd gutter write for you all. I'm shore glad it warn't tho, cause like ter write. I can't write very good and I ain't much of a speller but I shore to like to write just the same.

These here football men shore are a wearin' some good lookin' sweaters around here. Pretty hot weather to be wearin' a sweater, but believe me by heck, if I had one I would be wearin' it. Some of em got some coat sweaters, too. I guess they're fer basketball.

You all know I've been hangin around school now fer ten or fifteen years, and I have been around a lot of schools but there are more courtin' couples around here than any place I ever been. I'll bet there's as many as twenty or thirty boys and girls that hang around in couples all the time. Then too, once in a while you see a teacher steppin' out with somebody. They don't seem to run around as much as some of the students. Guess they have too much work to do, because I know they ain't ashamed to be seen.

Nearly everybody I see is a talkin' about these here examinations. I guess by the time you all git ter read this the exams will be just about over. Then it'll all be over except the shoutin' or cryin', as the case may be. These here Juniors are sure enuff a takin' on an important mood now as it won't be long until some of them at least will be Seniors. I'll bet it's wonderful to be a Senior, specially at first. Its been so long to me since I was first a Senior that I about forgot how it feels.

I'm a wonderin what most of you folks are a gonna do when school is out. Well, I'm gonna saddle up old Bess and clear out I guess. That's about all there is fer me to do, ain't it? Yeah, I'm gonna take a trip that I've planned a long time. Yep, I'm gonna mount old Bess and be off to the South. I guess most all uv you'll will scatter to the four winds (mostly southwest winds) of the earth. Some of you may never go to school any more, some may not have to, some will probably come back several years yet, but you will all probably be happy when Mr. Carruth turns you loose for a few months vacation. As for you all, I'm sure you will have an enjoyable summer.

Teachers, boys and girls, and janitors, I have a few words to say to you in regard to my feelin's for you. I ain't been a knowin' you'll very long, but I have knowed you lonk enuff to know that I like you all. If I've said anything this year in my writtin' that has hurt your feelings I want to kindly apologize and at the same time say—Good-bye!

Graduation Program For Seventh Grade Saturday Night

A pageant, portraying the development of the Panhandle will be given Saturday, May 20., at 8:00, by the seventh grade graduates of Canyon Grade School. This material was collected by the students themselves. The public is invited to come.

Girl Scouts Prepare For Annual Camp

One of the most energetic organizations in Canyon High School is the Girl Scouts.

When you see one of these Girl Scouts, you may rest assured that the main thing in her mind is the annual camp, which is to be held the week after school is out at Camp Kiwanis, northwest of Amarillo.

The Girl Scouts are not relying on anyone else for their good times, but are active in financing their own camps.

Each girl must earn twenty-five cents before going to camp. Miss Goodrich, the Scout leader, offered two Girl Scout diaries to the two who earn their money the cleverest way. Mildred Shuman, whose collar bone was broken, shelled five pounds of pecans with her left hand. Bonnie Bee Dickenson fed a large number of sheep by hand, three times a day for a number of days. There were many other clever ideas used.

Among the many ways the girls have earned money to finance their camp are: sponsoring shows, selling candy, auctioning teachers' souvenirs, selling sandwiches, candy and ice cream at the County Meet and collecting coat hangers.

View of the Staff As They Meet For Last Time

We hear the sound of the gong as our newspaper staff gathers in Miss Dickenson's room for the last time in the school year.

There is Miss Dickenson seated sedately behind her desk. Then there is Louise. We lose her this year, but she has a great future ahead. R. L. is chewing on his pencil and trying to decide how to begin Cactus Cal. Jean Burgess is writing an editorial. Lela Hickox is mumbaling to herself trying to decide what to wear tonight. Kathryn Robinson is still dreaming on how to make a headline.

Ah! Our future editor, Robbie Lee Foster. She is scratching her head. Armor Lee Greenfield is trying to get Madelyn Bull to tell her about an ex-student. Mary Dowlen is running into Mr. Terry's office to use the phone.

Ruby Foster is reading several articles. Bill Cone and Hampton Lisle are sitting off by themselves trying to decide who should go see Mrs. Strain about that grade school news. Mary Ella Lowe is trying to find out how to spell a word, but she hates to break the calm.

Sarah Bonnie Bourn is giggling to herself and attempting to elaborate long on the Senior recital. There, they all sit. Each busy. Yet all with but a single thought! Get that paper out!

Graduating Class To Honor Parents With Spread Dinner

Tomorrow night in the High School Gym, the graduating class will entertain their fathers and mothers with an old time "spread dinner."

This is the first time a graduating class has ever held such a social affair for their fathers and mothers. It is due to become one of the greatest social affairs in the history of this class.

Every boy or girl is to bring his or her parents, and to bring a covered dish of food. The meal is to be spread out on tables and every one help himself. A delightful menu of chicken and gravy, green beans, potato salad, carrot and cranberry salad, iced tea and pie has been arranged.

Mrs. W. H. Stroud and Mrs. Joe Black are in charge of the affair. Every Senior is urged to come and bring his parents, because this will be the only chance and the last chance for the Seniors and their parents to be together.

Remember parents, tomorrow night at 8 o'clock in the High School Gymnasium.

Seniors Receive Diplomas Next Monday Night

The Seniors of C. H. S. are going to receive their diplomas Monday night, May 22, 1933.

Dr. Snodgrass of Amarillo will deliver the opening address. Mr. Carruth will present all of the scholarships and honors. Mr. Stroud is going to give the diplomas.

The Baccalaureate ceremonies will be held Sunday, May 21. Rev. J. H. Hicks has charge of these services.

Mr. Carruth said: "I sincerely hope that friends of the graduates will be present on these two occasions. They have worked hard and have a good record, and deserve warm commendation of their friends. The graduates of this year form one of the best classes of all the C. H. S. graduating classes. They are very strong in enterprise and citizenship. I wish every success of life."

Ex-Students

The ex-students of Canyon High School are many and the professions they have entered are varied.

The first class to graduate from C. H. S. was a group of six students. This group, the class of 1903, has been scattered and the members have entered different walks of life.

Tom Frank Wilson is in Pueblo, Colorado, working for the railroad company there.

Rose Bratton married John Howell and now lives at Fort Worth.

Belle Shotwell married Mr. Hill and lives on a ranch near Amarillo.

Ona Long married W. W. Stephenson and lives at Happy.

The whereabouts of Mary Wansley are unknown.

Columbia Redfearn lives in Canyon and operates the Ladies' Store. Dean B. McGue is a writer and lives at Durango, Colorado. He has been employed by some of the largest newspapers in the United States—the Chicago Herald-Examiner, San Francisco Examiner, The World (New York), The Denver Post, The Post-Intelligencer (Seattle), and The Oregonian (Portland), and numerous smaller papers.

Miss Columbia Redfearn received the following letter from Dean McGue:

Durango, Colo., May 6, 1933. Miss Columbia Redfearn, Canyon, Texas.

My Dear Friend:

How time flies!

Here it is high school commencement time again.

And as I live again in memory, and glance at the calendar, I am reminded that it was thirty years ago this month that you and I, and five others, Rose Bratton, Mary Wansley, Bell Shotwell, Ona Long, and Tom Wilson, composed the first regular class graduating and receiving diplomas from Canyon High School. Prof. A. E. Ernberger was principal.

Scattered to the four quarters of the globe, so far as I know, are the members of the class of C. H. S. of 1903. But wherever they be, I trust the toll of time has been felt lightly and that they are enjoying the fruits of useful lives, health, wealth and contentment.

My farewell to other members of our class, with one exception, as I now recall, was the day following Commencement when we met at the M. S. Lusby studio to have a group picture made. I still retain one of those pictures. Some six or seven years later I met Tom Wilson at Pueblo.

It has been my desire, especially during the past few years, to arrange my itinerary so I could visit Canyon at Commencement time, but circumstances over which I have had no control have prevented. I am looking to the future, however, with the same confidence as did our class of long years ago.

My greatest accomplishment, since I faced the world armed with a C. H. S. diploma as my most effective weapon, has, stripped of all gloss, been the accumulation of a portable typewriter and experience of a varied nature, gained in many lands and climes. Somehow, after all these years, I seem unable to complete the course, as I am yet a willing listener to the siren call of such adventures that lure a free-lance journalist. My latest jaunt, requiring four years' time, took me into Mexico, Central America, Northern Rhodesia and the Orient. I'm planning now to spend the summer here, fishing and writing fiction, of the adventure type, a line in which I have attained some little success.

Notice

Notice! To all high school students. Before being turned in, all books must be cleaned up, marks erased, torn pages repaired, etc. The torn pages must be repaired with mullage, as library paste dries out and leaves the books in as bad condition as if it had not been repaired. If these repairs are not made it will be necessary to charge a heavy fine, as someone else will have to be paid to do the work.

Grades and credits will be held up until the book records are clear. Books must be turned in according to schedule, which is Friday from 2:45 to 5:00.

Supervisor's Column

The greatest values of school are, of course, unseen. It is however, a fine thing to attend the closing exercises of each school term and there to see tangible evidences of accomplishments. The school exhibit shows work from each child in the entire system, and gives each teacher an opportunity to get in touch with the parents of every pupil. The programs that come a little later show that work of a different nature has been done, in music, in pageants, in readings, and along every line. The high school play gives evidence that the dramatic department has been doing its part to make the activities of the school year well rounded and worth while. The recitals of the music and dramatic departments give inspiration to many youngsters to study such things next year, and the appearances of the band are calculated to bring in more entries next year.

And now comes the last week with its many events to show that teachers in these closing days have not been lax in the training of the pupils under their care. The recital, the grade school closing on Saturday night, and the two events for the high school on Sunday and Monday night show that somewhere along the line, teachers have been staying close by the job of educating the children placed in their care. And to you who see the finished program and the finished product, it may all look easy. But it is the result of long hours of planning, of still more hours of drill and endless patience in trying to shape young minds and young bodies in the patterns of modern civilization.

We welcome you to these programs but at the same time I would not have you forget that behind each youngster who so proudly grasps a diploma and marches across the platform of graduation so that all may see, there is a teacher somewhere in the background, who has labored, and cajoled, and planned—all that your son and your daughter might be ready for this occasion and the occasion of his life that demand ability and training.

Who's Who

If anyone were to ask a C. H. S. student who a freckled-faced, brown haired, blue eyed, girl is, it is certain that they would say, "Bill" Price.

Wilma is the new Purple Pep leader and are they proud of it! One very good point about Miss Price is the volume of her voice. If she gives the Eagles the full sound of her voice, the '34 team is sure to win.

She has been a student of Canyon schools for nine years. She is a sophomore.

The '34 junior class certainly got the breaks. "Micky" Schmidt, other pep leader, and "Bill" are both from this class.

Well, here is to Wilma Price, long may she yell and loud!

mention of the weather, I will say that while "Springtime in the Rockies" is a most delightful season, it is snowing like blazes here today.

And, of course, you've read accounts of Durango's "Galloping Mountain"—well, it is all the press reports portray (I send most of these reports out). It is a world in the making—a phenomena. The mountain is disintegrating, falling apart, millions of tons of boulders and earth moving at one time. There is an almost constant "run" from its crest. Cause, unknown. Damage, none.

Trusting you are enjoying the best of health and the good things of the world, spiritual and material, and that I'll receive another of your most interesting letters, I am,

Sincerely

D. B. MCGUE,
873—3rd Ave., Durango, Colo.

Carruth Expresses Appreciation For Successful Year

The following article is an interview of an Eagles Tale reporter with Mr. Carruth, the superintendent of Canyon High School.

In summarizing the past year Mr. Carruth said: "As I look back over the school year that's almost gone, it seems very short indeed. I guess it's a sign of old age when one notices that time passes so rapidly. It has been a school year filled with both pleasures and disappointments; however, I am glad to say that the pleasures have far outnumbered the disappointments."

"We are human and have therefore made some mistakes," Mr. Carruth said. "However, the year taken as a whole has been a very productive one from the standpoint of achievement. The faculty has functioned well and the student body as a group has responded in a very cooperative way. It has been a pleasure to work with them."

"Our failure rate in both elementary and high school will be very low. We have the highest average scholarship among the student-body of the high school that we have ever had. I believe that we will have fewer failures among our college freshmen going from Canyon High this year than we have ever had."

"Not only has the school year been very successful from the standpoint of scholarship but the extra curricular work done by students and teachers has been especially gratifying."

Speaking of the assembly programs which were in charge of the students, Mr. Carruth said: "The students have conducted the majority of the assembly programs and have shown a great deal of originality and initiative in club work and other activities."

"We have had by far the greatest interest in debates and declamations that we have ever had. Our students have been very successful and have shown a great deal of interest in all forms of speaking contests."

"At this time I would like to express my appreciation for the interest and cooperation of all patrons of our school. The P. T. A. has been especially helpful and active throughout the school year. Any school benefits greatly from such interests. The school exhibit was better attended this year than ever before and proved to be a great benefit to the teachers as well as the public because of the expression of faith in the work of the school made by those who attended."

"In closing I would like to express my appreciation of the faculty and myself to the boys and girls of the senior class. We believe they are as fine a bunch of people that ever graduated from high school and wish for them every success and happiness, as they begin their struggle of life."

First School Building in County Torn Down Monday

The first school ever built in Randall County has been seen by most of you, but you are unaware of it. The old wooden building situated on the block southeast of the square and faced south, was built eight miles west of town and was known as the Lair School.

The building was owned by R. E. Foster and was torn down last week. Its dimensions were 20x30 feet and it was used as a one room school building. It was moved from its first location to the place where it was torn down.

Sophomores Attend Class Picnic Mon. Night at Cox's

Monday night, May 8, the sophomores celebrated the end of school by attending a class picnic at the Cox home, northwest of town.

After leaving the school building at six o'clock, they arrived in cars and trucks at the scene of the picnic. Games were played until a late hour when weiners were roasted. After a few more games, the group returned to town.

ASSISTANT EDITOR CHOSEN

Hampton Lisle has been chosen as assistant editor to aid Robbie Foster in the publication of The Eagles Tale next year. Hampton has taken an active part in the publication of the paper this year and the other activities of the school.

Sweaters Awarded To Football Boys at Chapel Period

Sweaters were awarded to the boys of the '32 football squad Tuesday afternoon, May 9. Those receiving sweaters with three stripes were Leonard Brasuel, a senior, and Owen Miller, a junior. Leonard received a star on his sweater as he was captain of the team. Those receiving two stripes were George Brasuel and Tyson Cox, both seniors. Other lettermen receiving sweaters were:

Alton Brasuel, junior; "Scoop" Ellison, junior; Curtis Ellison, sophomore; Truett O'Donald, senior; Sewell Cox, freshman; Austin Cone, senior; Ogden Stroud, senior; Christopher Wooten, sophomore; Robert Black, senior; J. M. Black, senior; T. V. Slack, junior; Wesley Williams, junior; Joe Collins, senior; F. A. Thomas, senior; H. B. Owens, manager, senior.

Wade Johnson and Johnnie Wilson who are enrolled in the training school at the present time received sweaters. Johnnie received a two-stripe sweater.

Teachers Plan To Spend Summer In Many Ways

After a hard nine months work the teachers are planning to spend the summer in many different ways.

Mr. Carruth will travel over the western part of the United States.

Mr. Terry is going to school at the University of Texas.

Miss Jordan will attend Peabody at Nashville, Tennessee.

Miss Murrell is planning to visit relatives in Tennessee and Missouri.

Mr. Barker will be in Canyon part of the summer and will then travel in the northwestern part of the United States.

Miss Brasuel is planning to go to school at West Texas State Teachers College.

Miss Clark and Mrs. Foster will stay in Canyon.

Mrs. Crump will spend part of the summer in Colorado.

Miss Foster will be with her parents in Dumas.

Coach Barksdale is planning to go to school.

Miss Dickinson will spend the summer with her parents in Silverton.

Latin Translation During a West Texas Sandstorm

Perhaps one of the most distressing things about West Texas sand storms is the fact that Latin translations can't be stopped. If you've never had the extreme pleasure of studying "Caesar's Gallic Wars," during these blustery spells, then you've never had the impulse to act as Caesar did.

"This is perhaps what a second year Latin student thinks:

"As Caesar saw the enemy retreating," boy, are these desks getting dusty! "Who brought news," I'm afraid I'm going to blow away when I go home, "from Labienus, his lieutenant." Oh! If I don't get busy, I'll never have this translation by class time. "A conspiracy was being formed in this place." I get so tired of dust. "Caesar was to send fresh soldiers and more weapons."

At any rate, most students come to the conclusion that Caesar would surely not have written this in a West Texas sand storm.

Press Club Members Enjoy Picnic Thursday Evening

The press club closed their activities of the year with a very enjoyable picnic Thursday evening at the Hurst fishing grounds.

Members of the club that enjoyed this eve: Robbie Foster, Kathryn Robinson, Ruby Foster, Lela Hickox, Jean Burgess, Mary Ella Lowe, Louise Wester, Armor Lee Greenfield, Mary Dowlen, Sarah Bonnie Bourn, Madelyn Bull, R. L. Burnam, Hampton Lisle and Miss Dickinson, the sponsor. Mr. Terry and Mr. Carruth were guests of the club.

APPRECIATION OF OUR TEACHERS

Did you ever just stop and think about a teacher? A teacher is more than just a person put here to give us work to do and see that we do it. He or she is a real friend.

We should appreciate the many favors the teachers of the high school have shown us each day of this school year. They have come to the high school every school day and worked here and outside of school many hours each day for us without receiving one word or act of appreciation on our part in return.

Some students accept these favors as the teacher's obligation in return for his pay. In reality, he could draw his salary without doing these little things which make school life pleasant for us.

A teacher may be even more than just a friend. He may be an inspiration to us, or a pal. For instance, I may think one teacher the best sport I have ever met, and profit by my friendship with him and improve my own sportsmanship. Another teacher may have the patience of Job and this might inspire me to lengthen the limit of my patience.

Teachers are human. They have their ups and downs and their off-days, the same as the rest of us. What can we do to repay them?

Newspaper Writing Benefits Students In Later Life

It is true that all of the modern progressive schools have a school publication of some type. Some of them are yet in a crude state. This is a point that those interested in the publication and progressiveness of the Eagles Tale are trying to overcome.

In order for them to do so, it is necessary to have a group to do this work who are interested and are willing to devote much of their time and energy to the work.

The value of writing for publications increases constantly as a result of the growth of social life of the school and community.

It is important that high school students should make a study of writing, for it offers an opportunity and makes a good background for professional writing; it increases the ability of a student to intelligently read the modern newspaper.

It will probably be interesting for the students to know that those who do active work on the Eagles Tale will receive an activity credit of one-half point for one year's work.

T-ANCHOR PARK IS COMPLETED

Four-Acre Lake Provides Swimming, Irrigation Facilities

Completion of the T-Anchor recreation-irrigation project was announced last week by Prof. T. M. Moore, of the Department of Agriculture, who has been in charge of the large enterprise.

A dam has been constructed across Spring Draw, a running stream fed by springs located several miles up-stream, and a lake covering four acres has already formed. Water at the rate of 75,000 gallons each day is pouring into the enclosure. Between four and five feet deep now, it has a capacity depth of nearly twenty feet at one point. The bottom is of clay and sand.

An ideal location for an all-college recreation center has been the dream of Dr. J. A. Hill for many years. It appears likely that the T-Anchor project will fulfill that dream.

The north side of the dam will comprise the recreation ground. Cottonwood, willow, and Chinese elm trees are being planted and a thick mat of native grass already covers the plot. It adjoins the Amarillo highway less than two miles off the Campus.

On the south side a twelve acre plot will be irrigated from stand-pipes inserted at the base of the dam.

Measures to provide rowing facilities have been taken by Ruth Cross, Director of Women's Physical Education. Other aquatic sports are planned. Ice-skating will be foremost among the winter activities of the lake.

Twelve students have been given part-time employment at the dam. Actual construction work was under the direction of H. C. Weatherly, W. T. Junior.

Wayside Items

We were favored with a nice Mother's Day program led by Mrs. E. J. Culwell, Sunday, after Sun-School. Music, readings and all were so nice. Much credit is due all who participated. Afterwards Rev. Ira Smith of Floydada gave us an interesting talk on Mother's Day.

Sunday night he gave us the first of a series of sermons, the beginning of our revival. Monday Rev. J. R. Plant and wife and Jack, Jr. joined him. We invite all who can to attend these services.

The weather is quite cool, especially at night. Still dry and windy at times. Wheat is suffering for moisture.

Born to Mr. and Mrs. Dallas Culwell, a 7 pound daughter, May 6, name, Grace Nadell. Mother and babe are doing well.

Born to Mr. and Mrs. Bill James, a son, May 7th.

Mrs. Edith Haral, Billy, Wanda and Malcomb, with Miss Tina Crow spent the past week end at Friona with relatives.

Wayside school closed with an entertainment Thursday night. Time was cut shorter than was expected, but pupils did very well considering time to prepare for it. W. T. Dungan and wife left Saturday.

urday morning with car and trailer containing their household goods for Collin County. Near Vigo Park unfortunately the trailer turned over on newly worked road. In turning it back a tire blew out. His friends around Wayside regret to hear of this misfortune. Trust they made it all right the rest of the way.

Miss Iva Lee James reached home Saturday from a trip to Los Angeles, Calif., by way of Montana.

Roy Franklin and wife spent greater part of last week at the parental Tucker home in Canyon.

W. H. Hamblen, wife and Ramona, with Fannie May Franklin, motored to Amarillo Monday.

Gardens will be late, lack of moisture delayed planting for some time. We fear there will be but little to can in these parts.

Quite a crowd on the Hamblen Drive Sunday afternoon.

Rev. C. W. Foote of Canyon assisted Rev. J. R. Plant in a revival at Vigo Park recently closed. Results, a good meeting among the church members, three members added to the church, one by certificate and two by baptism.

Sunny Hill News

Sunny Hill P. T. A. is very grateful to the Rotary Club of Canyon who so generously responded to our invitation to put on a program at the school house. Nearly every family in the community brought supper, and there were loads of good eats.

About seventeen members of Sunny Hill H. D. Club attended the Short Course at Canyon last Thursday. They reported a busy day.

Mr. and Mrs. Amos Ratjen are entertaining a baby girl whose name is Joan.

Mr. and Mrs. Roby attended a Mother's Day reunion in Amarillo Sunday, in honor of Mr. Roby's mother.

Misses Corinne and Katherine Hollabaugh, Dorothy Lash and Mr. Lash were shopping in Amarillo Saturday.

Native Artists To Have Exhibit For Month in Museum

A new art exhibit will be in place in the Mary E. Hudspeth Art Room of the Panhandle-Plains Historical Society Museum when it is opened to the public next Sunday. The pictures will be hung by Miss Isabelle Robinson, head of the art department of the West Texas State Teachers College. They will be work done by art majors of the college who have been graduated since 1925. Many of the pictures are being sent from distant points in Texas and some of them from Iowa, New Mexico, and North Carolina.

That people who visit the Museum have been greatly interested in the exhibit by Panhandle artists which has been in place since April 14, has been evident from the numbers who have returned again and again to the art gallery to look at the pictures. Well over 8,000 people have viewed the pictures.

The pictures have made varied appeals to those who have seen them. Mrs. Jessie Palmer's portrait of a little boy and his dog has universal appeal because of its subject matter, while her Plains Landscape with its expanse of blue sky and prairie has delighted those who love Panhandle summers.

John Eliot Jenkin's oil painting of Adobe Walls, which was done with Mrs. Olive K. Dixon's suggestions, has much historical interest, as has also his portrait of Billy Dixon.

No picture in the exhibit has attracted so much attention as A. W. Mack's old painting, "Old Sourdough." Visitors did not always

like it, but all returned to study it a second time. Permission has been asked to exhibit this painting in Chicago.

The portraits of Colonel Charles Goodnight and Colonel T. C. Bugbee by Harold Bugbee, Clarendon artist, have brought to those who have seen them a new appreciation of the type of men who built the foundations for the present Panhandle culture, and many tales of the earlier days have been told before them. The portrait of Colonel Bugbee is a gift to the Museum and that of Colonel Goodnight will continue to hang in the gallery for the present.

The etchings of Miss Margaret Sewald, of Amarillo, received much favorable comment because of their delicacy and subject matter.

"The Cowboy's Bath," by Vernon Hunter was easily the favorite of the pictures by this young Texico artist. It shows a nude cowboy, bathing with the poor facilities offered by windmill and wash basin.

"Old Timer," by Ben Carlton Mead, of Amarillo, showed the man whose face and character had been produced by the wind and weather and hardship of pioneer life.

The exhibit which has been up for the past month has shown what artists living in the Panhandle are doing in interpreting the life of the Great Plains Region. The exhibit which will hang from now until the first of June will show the work of artists who are native to the region, many of whom have removed to distant places.

Mr. and Mrs. Leo Forrest and baby of Farwell visited at the J. B. Fowler home Tuesday. Both are ex-students of W. T., and Mr. Forrest is teaching in the Farwell schools.

Oklahoma College Represented Among Museum Visitors

Among the groups of visitors to Pioneer Hall was one from Panhandle A. & M. Saturday afternoon. Dr. Fly, A. & M. Science professor, headed the delegation.

Organized as the Museum Club and composed of thirty or more members, the group has made an extensive study of paleontology and historical specimens found in the Southwest. A large collection has been gathered at the Oklahoma school during the single year of the Club's existence. It is hoped that a museum will be established on the Campus at Goodwell in the near future.

College, Nacogdoches, \$127,800; and West Texas State Teachers College, Canyon, \$139,080.

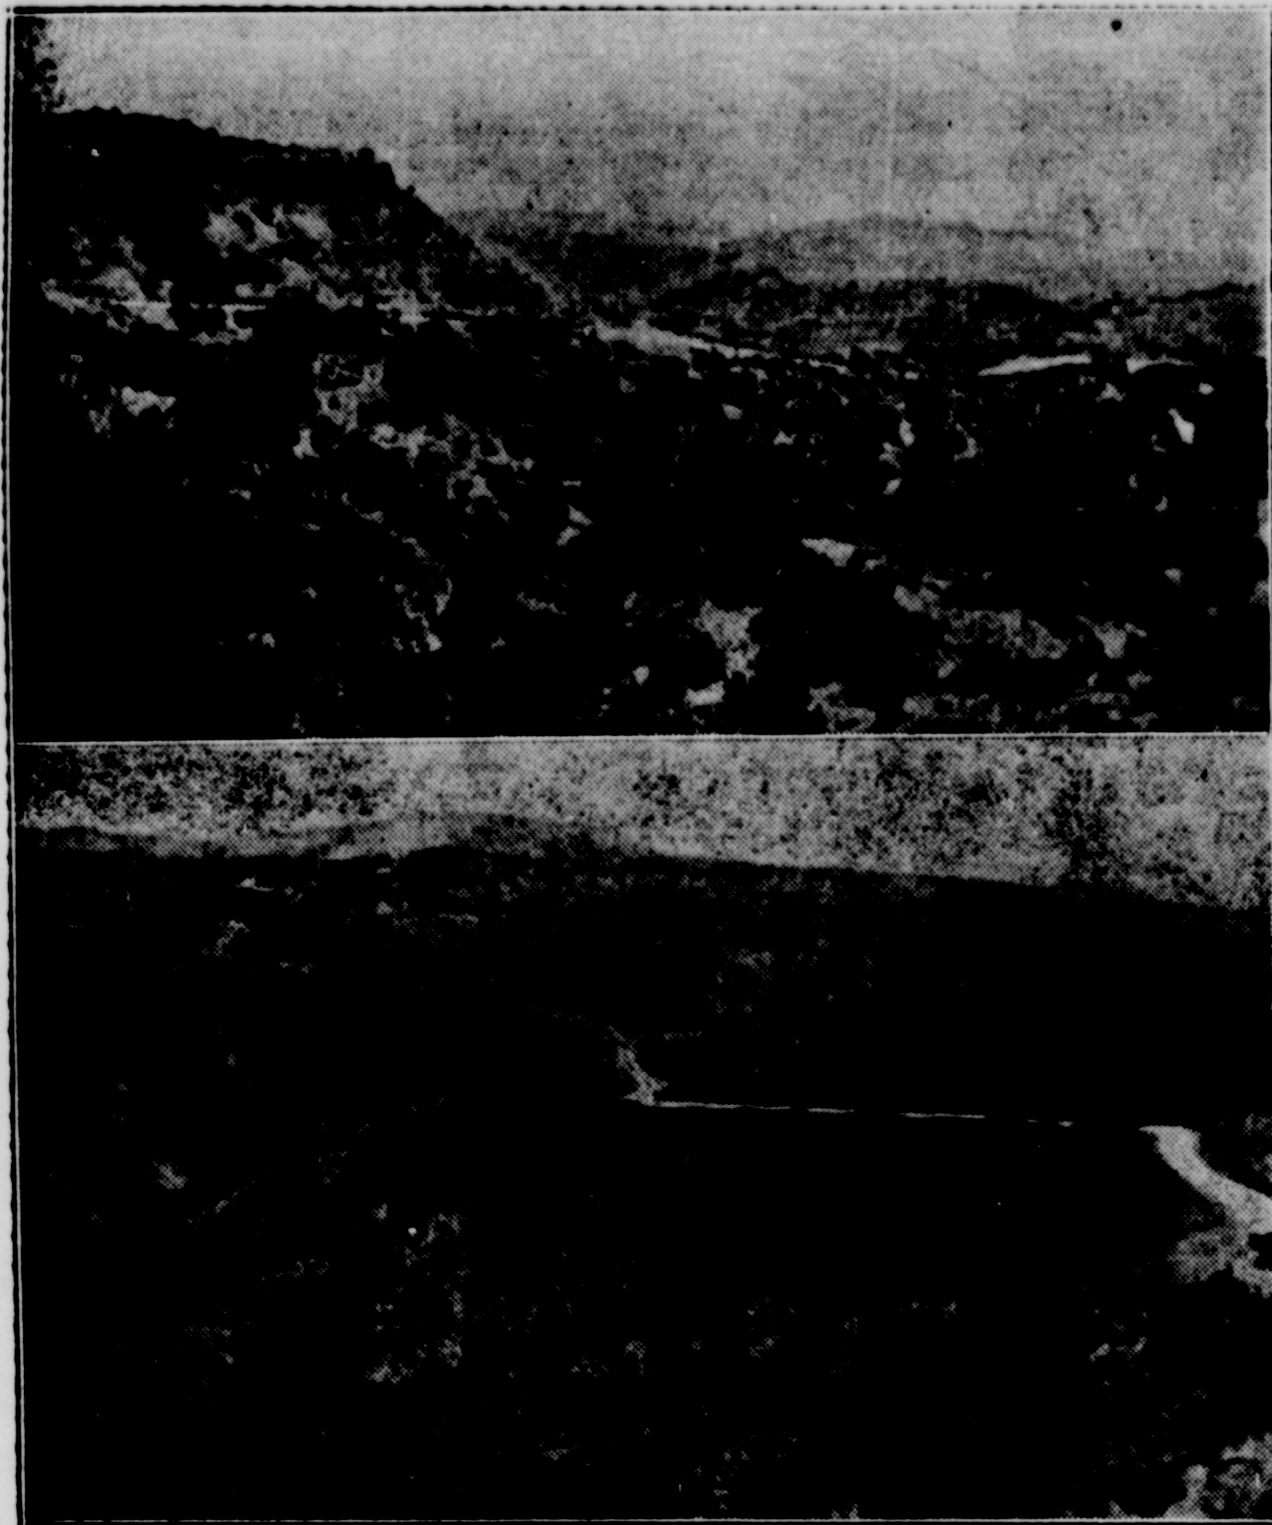

The College of Mines and Metallurgy at El Paso and the College of Arts and Industries at Kingsville also were placed in the \$180 group, the former receiving \$108,000 and the latter \$104,340 for each year.

A special dispensation was made for the Sul Ross State Teachers College at Alpine because of its extremely small enrollment. It was given \$73,000 which was \$255 per capita, compared with a per student cost for this year of \$423.

Per capita costs at the schools this year ranged from \$189 at Commerce to \$423 at Alpine, the average being \$269.

Having determined the total of appropriations to be allowed, the committee decided to permit officials of the schools to write their own itemization of the funds.

SCENES IN HAMBLÉN DRIVE

The above pictures are two views in the Hamblén Drive across the Palo Duro Canyon at Wayside. The drive across the canyon measures 9 miles and is one of the most scenic in the Southwest, being equal to any scenic drive found

in New Mexico or Colorado. The above pictures were taken by Albert E. Terry and are two of a series taken last week. They are being exhibited this week in Austin.

Several hundred cars drove across

the Palo Duro on the Hamblén Drive last Sunday. It is expected that the number will increase weekly as the people of the Plains realize the beauty of the drive. A large number of picnicking parties took their lunch and spent the day in the canyon.

Bufs Will Not Meet Tech Here, Prexies State

Presidents Bradford Knapp and J. A. Hill have issued a joint statement regarding the athletic situation between Canyon and Lubbock in which the proposed track meet scheduled for Saturday was called off for economic reasons. An athletic dispute was started between the two schools following the spring football game at Lubbock, which ended in a fight between the two teams, after players on each team were ejected for rough play. Coach S. D. Burton proposed permanently severing athletic relations between the two colleges.

After a conference and investigation of the "difficulties" between the athletes, Presidents Knapp and Hill released the following statement:

"It is our conclusion that this whole situation has arisen out of mistakes made by both institutions and our conviction is that both parties are somewhat to blame."

Both presidents state that they are fully in favor of fine, high-class sportsmanlike intercollegiate contests. They are both anxious to see most cordial relations existing between these state institutions and they both announced their determination to work the whole situation out so as to bring about that end.

"It is our sincere feeling that whatever differences may have existed in the past can and will be corrected, and that contests can be held of a high standard. 'Each of them has registered his determination to take an active and personal interest in athletic affairs at the two institutions and to absolutely eliminate all objectionable practices.

MRS. SUSAN KEY IS BURIED AT BROWNFIELD

Mrs. Susan S. Key, mother of Roy Rogers of this city, died at St. Louis Friday, at the age of 83 years, 4 months and 21 days. The funeral was held at Brownfield Sunday.

Mrs. Key is survived by the following children: H. N. Key of Brownfield; Mrs. Joe Treybal of St. Louis; Dr. W. T. Minor of Sayre, Okla.; L. B. Minor of Roswell; Mrs. E. P. Snoddy of Bakersville, Calif.; Roy Rogers of Canyon.

CARD OF THANKS

We take this method to thank our many friends for their thoughtful kindness at a time when it was greatly appreciated.

Children of Mrs. Susan B. Key.

Commencement Play Has Comedy Roles Of Superb Nature

The Commencement play, "The Wild Westcotts," will be given Friday evening, May 26.

The play has drawn for its cast from the Panhandle Players troupe and from among the underclassmen. There are no seniors among the large number of roles.

Four comedy roles, presenting Melba Gamewell, Farris Sears, Robert Williams, and Joe Ford, will provide extraordinary mirth for W. T.'s theatrical lovers. Other important assignments are filled by Fern Landers, Mary Alice Weaver, Ray Crowder, Arlen Hartzog, William Hawkins, and Charles Donnell.

"It is an excellent comedy," Miss Mary Morgan Brown, director of the play said. "I believe it is one of the most humorous plays I have ever dealt with."

Scenic Drive

(Continued from first page)

Trail would start at the Museum building of the Panhandle-Plains Historical Society in Canyon, enter the Palo Duro at the spot where Col. and Mrs. Goodnight entered the Palo Duro 78 years ago, pass by the first camp of the Goodnights in Timber Creek, on to the old Goodnight ranch site and then to the Hamblén Drive at Wayside, and hence to the Goodnight ranch where the grave of Col. and Mrs. Goodnight are to be found.

Progress is being made on the proposed Goodnight Trail and Palo Duro Park. Clyde W. Warwick attended a meeting of the executive committee in Amarillo Monday afternoon where reports were given by J. O. Guleke, Wilbur C. Hawk, T. E. Johnson and others. Mr. Guleke states that 4000 men would be given work if this measure goes through.

Fred C. Emory was here Tuesday and reported that everything was ready for action as soon as necessary legislation was passed by the Texas legislature which would make possible the opening of the 14000 acres of the Palo Duro Park.

J. B. Elliston left Tuesday for Austin where he will assist in working out the details of the Park situation.

LIGHT SHOWER MONDAY

A light shower of .05 of an inch fell in Canyon Monday night. The west part of the county received a little more moisture than other sections. Indications of rain prevailed for several days, but to no avail.

Mrs. Clarence Bauer of Happy spent Tuesday with Mrs. Bill Money.

Two Boys In Jail For Robbing School in County

Sam Franklin 13, Lubbock, and Jess Ligon, 20, Rails, were placed in jail here Tuesday afternoon, charged with burglary of the Alice Landegin School in south Amarillo.

The two youths were picked up by Amarillo police and held for Sheriff R. N. Barnett. The school located in Randall county was broken into Sunday night and a small number of items taken. No money, with the exception of several rare coins were stolen.

Most of the loot was recovered. It included several basketballs and several footballs. Also 3 folding music racks, several cans of varnish and a few trinkets. Several master keys to the building were found in possession of the boys.

Ligon signed a statement admitting the crime, but Franklin refused to talk concerning the charge. The same school was burglarized several weeks ago, but the youths now held, deny any connection in that case.

Misses Olive and Bell Schramm and John Schramm spent Sunday visiting in Borger in the home of Mr. and Mrs. C. W. Price.
